Ronnie Rock ...

Expressive Arts & Design

Ronnie helps children to take part in music by playing any musical instrument then getting them to sing-a-long and dance.

He's very creative and fabulous at art so helps children to draw and paint by clicking his fingers to produce his magic paint brush.

Ronnie always encourages children to use their imagination and teams up with Millie Maths to explain colours and create different shaped objects.

Helping children to be creative is as much about encouraging attitudes of curiosity and questioning as about skills or techniques. Expressive arts and design is about how children develop their imaginations by exploring art, music, drama and play.

Ant Active ...

Physical Development

Ant is very athletic, full of energy and he's always on the go! He's a first class sports coach and teaches children how to look after themselves by exercising through play and eating healthy foods.

Ant Teams up with Suzi Smiles to explain the importance of personal hygiene and looking after yourself.

Physical Development is about how young children gain control of their bodies, but it also includes how children learn about keeping themselves active and healthy and how they learn to use equipment and materials successfully and safely.

Millie Maths ...

Mathematics

Millie is a super smart little girl and has a cute smile with an adorable gap between her front teeth.

She helps children to solve mathematical equations, make shapes and measure things.

Millie teams with Ronnie Rock to explain colours and create different shaped objects.

Helping children to enjoy mathematics is probably one of the most important things that adults can do so that children realise that mathematics is a way of finding things out and solving problems.

Peter Planet ...

Understanding the World

Peter is a weather expert, he knows all about the seasons and everything that grows and lives on planet Earth.

He is very knowledgeable about science, space travel and the Solar System and is able to fly around at lightening speed on his solar powered hover-board.

Peter also communicates directly with Vicky Voice using his watch and cool futuristic head goggles to transmit events around the world.

Understanding of the world is about how children get to know about other people, the place where they live and about all aspects of the environment.

Finding out about the world around them is what young children do very effectively when they investigate by touching, holding or pressing things and by climbing on and jumping off things as they get older they love to explore and investigate how and why things work and to test out their ideas of what will happen if they do a particular thing.

Jake Jotter ...

Literacy

Jake is a knowledgeable cheeky chap who likes to help children improve their reading and writing.

He carries a special jotter with him, so he's always ready to take notes and teams up with Vicky Voice to introduce new words phonically for children to learn.

Being literate is essential in almost every aspect of adult life whether we are planning a holiday, selecting a TV programme or delivering parcels.

Literacy is often thought of as the ability 'to read and write' but it also includes being able to speak and listen.

Suzi Smiles ...

Personal, Social & Emotional Development

Suzi is a considerate, loving, upbeat and helpful little girl and is positioned to help strengthen and support children's emotional health and intelligence.

She's always smiling and likes to help children when they need love and support. Suzi recognises the everyday things around her and carries her comfort bear, who helps to build self confidence and awareness.

Research shows that PSED can have a lifelong effect on children's behaviours, relationships, physical and emotional well-being as well as the success they have in school. Suzi will help kids to express what they are feeling and teach them simple strategies for expressing and managing their feelings.

Vicky Voice ...

Communication & Language

Vicky is super bright and is excellent at communicating the phonic alphabet in a positive tone helping children to speak clearly.

She's fluent in every language across the world and teams up with Jake Jotter to introduce new words. Vicky also communicates directly with Peter Planet using her watch to help transmit events that are happening around the world.

Communication and language are instilled in us as social beings and we are ready for communicating right from birth. From the first moments after birth babies prefer their mother's voice above all others.

Communicating seems to be an in-built drive - and the ways we communicate rely as much on non-verbal means as on spoken communication.

activity based sheets for pre-schoolers in family focused restaurants

Publishing overview ...

“A fun and educational way to engage young children in reading!”

Publishing will initially focus on seven early years picture books introducing the new Super Geek Heroes World. Each adventure story will feature one of the 'super heroes' and deliver a core message related to the key developmental areas within the 'Early Years Foundation Stage' in a fun and engaging way.

Facts & Learning Developments;

- discovering elements within each key learning development area
- introducing animals, insects and everyday objects
- keeping things tidy, being polite, making promises
- using nursery items & playthings as props
- having fun with learning missions in the Super Geek Heroes “World”

Picture Book overview ...

Encourages interactive play inside the Super Geek Heroes World...

Each adventure starts with the Super Geek Heroes arriving at super school. The books focus on one of the character's learning developments.. Once inside their classroom they discover a new mystery to solve and one of the characters leads a mission to learn. To help solve the mission they enter a lift that transports them to a secret mission control room above the school. They use the control monitor to scan the surrounding area. Someone has been up to mischief! Mission Control doubles as a super ship to take the seven friends on amazing journeys to solve each mystery. The missions are always accomplished and end with a learning message. The Super Geek Heroes say their goodbyes as they race out of super school.

Picture Book preview ...

It's book day at Super School and Jake Jotter is very excited. He's a literacy expert and just loves reading. Jake sees a book he likes and when his back is turned it disappears. He heads off to tell his friends. Can Jake and the other Super Geek Heroes solve the mystery of the missing book?

It was a warm sunny morning and the Super Geek Heroes were on their way to Super School. Jake Jotter was particularly excited because the school had organised a special Book Day. He was looking forward to using his literary super powers to read lots of books. Jake spun and spiraled and zipped and dipped through the sky on his magic pencil.
"I love it when it's book day at school!" he exclaimed.

On the ground, Art Active was performing tricks on his super skateboard and Sam Smiles skated along the path. They weren't so keen on having a book day and much preferred to play outside because the sun was shining.

The Super Geek Heroes jumped on the secret floor mat and the ceiling opened. Whoooooah! They travelled up to their mission control room to scan the surrounding area.
"Let's hope we find some clues!" exclaimed Art.
"Whoa!" shouted Jake. "This is full!"
"We're on a mission to learn!" cried Mia.

Complete book available to view in Publishing Guide!

Picture Books series ...

It's a normal day at Super School but Vicky Voice is very excited about learning her ABC's. She's a communications expert and loves using phonics. Vicky offers to help her friends but all the alphabet blocks have been translated into a different language. She heads off to tell her friends. Can Vicky and the other Super Geek Heroes solve the mystery of the Chinese symbols?

It's sports day at Super School and Ant Active is very excited. He champions healthy food and exercise and just loves playing sports. Ant should be taking part in the running race but something else steals the limelight. He heads off to tell his friends. Can Ant and the other Super Geek Heroes solve the mystery of the race saboteurs?

Picture Books series ...

It's 'show and tell' day at Super School and Suzi Smiles is very excited. She loves helping people and uses her special cards to learn how we are feeling. Suzi's teddy bear helps to make people feel happy but something has made him very scared. Can Suzi and the other Super Geek Heroes solve the mystery of the unhappy bear?

It's science day at Super School and Peter Planet is very excited. He understands the world and just loves exploring space. Peter looks up to the sky and notices that the moon is moving in a strange way. He heads off to tell his friends. Can Peter and the other Super Geek Heroes solve the mystery of the bouncing moon?

Picture Books series ...

It's music day at Super School and Ronnie Rock is very excited. He's a music and drama expert and just loves singing and playing musical instruments. Ronnie cannot find his special guitar and heads off to tell his friends. Can Ronnie and the other Super Geek Heroes solve the mystery of the missing guitar?

It's numbers day at Super School and Millie Maths is very excited. She's a mathematics expert and just loves shapes and numbers. Millie notices that the school's clock has stopped and lessons cannot start. She heads off to tell her friends. Can Millie and the other Super Geek Heroes solve the mystery of the broken clock?

Creative brand direction ...

The following pages provide a taste of the creative direction for Super Geek Heroes.

The animated series is aimed at both boys and girls with a striking colour palette that appeals to both genders.

Our style guide is designed as gender neutral.
